

BARC BULLETIN

September 13, 2007

Re: Follow-up to the June 26, 2007 Bulletin

At the Company's request, on September 10th & 11th CEP National Staff from Ontario and Quebec, as well as the BARC Bargaining Committee members met to discuss the possibility of extending the current collective agreement.

The Company proposed an extension with changes to the collective agreement that were similar to the Atlantic Region settlement with BARC this past summer. Although there was good discussion between the parties, at the end of the second day the Company proposal involved concessions. Talks ended.

At our Bargaining Caucus in Toronto next week, we will proceed with setting our agenda for bargaining.

*In solidarity,
Your Bargaining Committee*
