

BARGAINING REPORT #7

2011 NEGOTIATIONS WITH EXPERTECH FOR CEP CRAFT & SERVICES MEMBERS

December 2, 2011

Brothers and Sisters,

We met the company in bargaining again this week in Ottawa, with the participation of the conciliator Réjean Bercier.

We spent most of the bargaining time concentrating on the classification system and contract language. We have not moved ahead. The company's concession demands remain on the table. We will return next week determined to convince the company of the justice of our proposals.

We remind you not to circulate rumours at work because they may undermine our efforts at the bargaining table.

We will update you next week.

We thank you for your continued support.

Solidarity Works!
